**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

With high UV levels and clear skies, care should be taken to protect skin by wearing sun cream.

Forecast for Wednesday 23 Jun 2021

Weather: Remaining clear during the early hours but cloud then builds through the morning with bases steadily lowering. A band of light rain lingers off the coast of Wales through the day, with the risk of this briefly affecting western locations during the afternoon and spreading across the park more widely in the evening.

Maximum wind: Wind on the summits will be northerly 7 mph, transitioning to westerly by mid-morning.

Chance of cloud free mountain/hill tops above 800m: 90% to begin with, falling to 60% by midday.

Visibility: Very good visibility to begin the day. Scattered cloud bases lowering during the morning to 500-600m, bringing moderate visibility on summits and higher slopes.

Temperature: **Valleys:** Plus 6 Celsius, rising to plus 18 Celsius.
At 800m: Plus 3 Celsius, rising to plus 8 Celsius.
Freezing level: Above the summits all day.
